# WE SIMPLY MAKE IT WORK.

## WE SIMPLY MAKE IT WORK. PEOPLE. PARTNER. SOLUTIONS.

With over 220 highly qualified employees, we are your reliable partner in mechanical engineering. Our many years of experience and expertise cover various industries, including automotive, trucks and zero-emission technologies.

In the automotive sector, we specialize in axle assembly lines and fully automatic toe/camber setting systems. With our innovative solutions, we support our customers in optimizing the performance, safety and

efficiency of their vehicles. We rely on state-of-the-art technologies to meet the requirements of the constantly evolving automotive industry.

We are also a leader in the truck segment, specializing in assembly systems for traction unit and trailer components. Our customized solutions are aimed at optimizing production capacity and sustainably increasing quality.

Since 2009, we have been part of the internationally active Strama Group, giving us access to a broad portfolio of expertise and resources. This cooperation allows us to ideally complement each other and to optimally strengthen our position on the world and future markets.

We are also pioneers in zero-emission technologies and offer assembly and automation solutions for the manufacture of hydrogen tanks. Our state-of-the-art facilities and expertise ensure efficient production of tanks that meet the highest quality standards and contribute to a sustainable future.

At AuE Kassel GmbH, customer satisfaction is our top priority. We pride ourselves on meeting your individual requirements through our technical expertise and first-class service. Our dedicated teams are always available to support you in the implementation of your projects.

Put your trust in AuE Kassel, your reliable partner in mechanical engineering. Through our holistic approach, we create a solid foundation for your long-term success and for the sustainable future of your industry.
